FECTED BY THE DECLINE. New York Bond Market Is Dull

and Its Range Is Narrow-Speculators Uneasy.

New York, Feb. 28.-The forecast of the bank statement and the prospect of additional heavy requirements upon New York bank reserves overcame the market to-day and dragged prices downward. The decline toward the latter part of the trading showed more consistency than any previous movement during the week. Prices of all classes of stocks were allke affected, both the minor specialties, among which there had been some show of strength earlier in the day, and the leading standard stocks, which had lain inert until the selling movement began. The liquidation was not ur-gent and showed no signs of being forced, but it was evident that it was thought best to be prepared for contingencies in the money market and take in all sail possible. The preliminary figures of the

there was deposited at the Subtreasury \$500,000 for transfer to Chicago, which would about whee out the Eastern gains by the banks. The loan item remains in the usual obscurity, but there has been no important stock-market liquidation. Syndicate subscriptions to the glucose and starch combination have been called, and there is a possibility that the gold exports represent the paying off of foreign obligations and their transfer to local banks, as was the case with the last gold that went out. There is no great hope, therefore, of anything but a very weak bank return to-morrow.

Beyond that, the persistent firmness of the foreign exchange market indicates that further gold will go out by export next week. The first deposit at the Subtreasury for transfer to the West is generally accepted as the sign of the turning movement of currency away from New York again to meet the usual spring requirements in the interior. New York exchange at Chicago, however, recovered to-day from 5 cents discount to 20 cents discount.

With surplus reserves of the banks last Saturday already down to the modert showing of \$12,456,650, the money outlook seems somewhat formidable for speculators on margin who are dependent upon the call loan market for accommodation with which to carry their holding. TEXAS OIL GOSSIP.

Western Cheaper Than Eastern Produci-Experiments in the Navy.

The difference in the price of Texas and Pennsylvania refined oils was attested yesterday in the formal follows as attested yesterday in the formal follows of contracts for the oil finel at the Texas electmosynary institution to a Texas company, which had underbid its Exstern competitors nearly 8 cents a barrel. The Waters-Pierce Oil Company of St. Louis was one of the unsuccessful bidders.

There is a passibility that this oil will be substituted for coal as fuel on board the chips of the United States Navy. A board of engineers is preparing a request for an appropriation of 29,000 to pay for oil to be used in experimenta to that end.

Several steamers on the lower Mississippi River are already using the Texas oil, and those in touch with the situation at Beaumont say that this fuel soon will be used exclusively on the river, where it is likely to revolutionize the traffic. uct-Experiments in the Navy. traffic. It is admitted that the greater part of the oil for the Mississipol Velley will be transported by water rather than by rail, and this is relied upon to revive the prosperity of river towns, when the traffic in oil once becomes thoroughly established by its introduction as fuel throughout the United States.

RAYMOND PLACE

They Ask Court to Set Aside an Agreement Waiving Certain Building Restriction.

The controversary between the property owners in Raymond place, on the south side of Verson avenue, between King's highway and Union boulevard, concerning restrictions on certain of the lots, resulted yesterday in a suit being filed in the Circuit Court by some of the property owners to have the restrictions construed, and to have an alleged agreement of waiver declared void. The plaintiffs are: G. A. Will, Metta Will, Charles H. Wittenberg, C. A. Frantz, Virginia T. Frantz, C. B. Walls, Elizabeth L. Spahr, W. H. Spahr, J. W. Hartnagle, Mary M. Moder, P. H. Hale, J. W. Chapman, Ophilia Chapman, Jennie Brady and H. J. Brady. The defendants are: The Fairland Realty Com; any, Raymond Place Realty Company, Star Realty Company, J. N. Miller, Charles C. Newberry, Louisa Sauer, Claude E. Vrooman, John W. Wray, Charles Marlatt, A. A. Fischer, Francis Fischer, Mary Duross, Kate A. Bonner, Eliza Donnelly, A. A. Fischer Architectural and Building Company, George A. Carpenter, James J. Donnelly, David K. Wood and H. H. Bridgiand.

The plaintiffs state that they acquired their property from the Raymond Place Realty Company under restrictions requir-ing but one building to be erected on each lot as platted; that no building be erected to cost less than \$4.00, and be erected not to cost less than \$4,00, and be erected not closer to the building line than twenty feet; that no flats be erected, and that there be no saloons or livery stables. The restrictions contained a clause, it is stated, that the inside lots could be used for business purposes with the consent of two-thirds of the property owners.

It is alleged that certain of the defandants, at the request of the agent of the Raymond Place Realty Company, signed an agreement, which, it was claimed, represented two-thirds of the property owners, agreeing to waive the restriction requiring but one building be erected on each lot.

It is alleged that the property of some

It is alleged that the property of some of the signers is on the north side of Vernon avenue, and is not subject to the restrictions. It is stated that the plaintiffs on the contered a protest, but that the Haymond Place Realty Company refused to cancel or release the agreement. It is alleged that it is threatened to erect buildings with a less frontage than the restrictions call for and that if this is done it will depreciate the value of the plaintiffs' property and that the appearance of the locality will be marred.

Fabrics and Silk.

Ladies' Five-Gored Skirt With Full Graduated Flounce, No. \$395-The upper portions of the new skirts, which are designed expressly for thin woolen fabrics and silks, are adjusted just as closely as heretofore. The flare around the bottom is still produced by flounces.

The flustration shows a skirt developed in pale gray Lansdowne, with trimmings of raffron-colored lace. The skirt is shaped with five well-proportioned gores that are fitted smoothly around the waist and hips without darts. Almost all the five-gored skirts this season are made with narrow side gores, which do away with the darts on the hips.

The closing is made in the center back under two inverted plaits that are flatly pressed. The pattern is given full length, and the flounce is usually applied. It may, however, be finished to form the lower portion of the skirt if so desired.

The flounce is gathered at the upper edge and arranged on the skirt. It is quite shallow in front and graduates to a considerable depth at the back. A broad band of lace trims the skirt just above the flounce, and lace applique forms a foot trimming. The flounce flares gracefully at the bottom and provides a stylish fullness to the skirt.

Albatross, veiling, crepe de Chine, chalite, silk muslin and soft slik or satins are all appropriate for this mode with lace applique, ruchings of chiffen or bands of ribton for trimming.

To make the skirt in the medium size will require five and one-balf yards of forty-four-inch material. The pattern, No. 8596, is cut in sizes for a 22, 24, 25, 25, 30 and 32 inch waist measure.

## WANTS GRANT'S STATUE MOVED Former Comptroller Sturgeon Fa-

vors Forest Park. Isaac N. Sturgeon, former City Comptroller, wan's the statue of General Grant, now located on the south side of the City

now located on the south side of the City Hall, removed to Forest Park, and has addressed an open letter to Mayor Wells and the Municipal Assembly, stating his reasons. He says that in Forest Park it will be seen, but that the statue is hidden in its present location.

"I could never understand," says Mr. Sturgeon, "why the statue should be where it is. A more inappropriate place could not have been selected, unless it was intended that as few persons as possible should see it. I presume \$500-certainly less than \$1.000-will place it in a suitable position in For-
